

Late September Hot Sheet – TP/DU's Set-Oct 2016

In Black – Colin Newell | In Burgundy Nigel Pimblett

531 Khz 1310Z NHK1 JOQG Morioka really, really struggling and // to 567 (and better than yesterday - and that's being generous!)

549 2CR Orange, AUSTRALIA ABC news fanfare at 1300

558 Khz 1312Z KBS2 Korea - noted // to the much better performer on 603 Khz

567 Khz 1312Z NHK1 JOIK Hokkaido network programming (using as one of my parallel spotters...) at times fair –

567 RNZ National Wellington, NEW ZEALAND time pips at 1300, and then a few bits of the news that followed

576 2RN Sydney, AUSTRALIA time pips and ABC news fanfare at 1100.

594 Khz 1313Z NHK1 JOAK Tokyo - solid // to 567 with network programming - Fair today but with breathtaking fades every few minutes

603 Khz 1314Z KBS2 Seoul - Happy FM (t) Korean patter doing better than yesterday despite the band conditions -

612 khz 1322Z 4QR Brisbane - felt, on average, slightly bolder than yesterday and for longer.

621 khz 1351Z 3RN (t) Melbourne - very *VERY* tentative with similar sounding English programming in the limited LSR boost

657 Khz 1258Z DPRK (t) Surprise with piano solo over the hour into YL agitated sabre rattling lecture. Fr. and vanished within a few minutes.

657 Star Wellington/Tauranga, NEW ZEALAND EZL music at 1324.

666 Khz 1314Z NHK1 JOBK Osaka // 567 and 594 fair at best this AM

675 khz 1319Z UNID - fairly clearly English programming in the mud and splash.

693 Khz 1317Z NHK2 JOAB Tokyo - odd surge on lower to mid band revealed a clear // to NHK2 biggies above brutal CBC 690 splash.

702 Khz 1316Z NHK2 Japan (multi) - easy // to 774 Khz - suspect Hokkaido but could be one other as well - fr. on peaks

702 2BL Sydney, AUSTRALIA Man talking at 1251 //738

729 5RN Adelaide, AUSTRALIA Peaked at 1315 with music.

738 2NR Grafton, AUSTRALIA ABC news fanfare at 1200. Heard Tahiti audio last night but not this morning.

747 Khz 1315Z NHK2 - JOIB - Sapporo, Hokkaido - Fair at times in mounds of splash

756 RNZ National Auckland, NEW ZEALAND time pips, then news by woman at 1100.

774 3LO Melbourne, AUSTRALIA Time pips, ABC news at 1200 by a man.

792 4RN Brisbane, AUSTRALIA First heard poorly at 1100 with pips and news fanfare. Fair with ABC news at 1203.

819 RNZ National Tauranga, NEW ZEALAND Just like 567, with time pips at 1300, and bits of the news that followed.

828 Khz 1323Z NHK2 - JOBB - Osaka - Typical Japanese programming –

828 3GI Sale, AUSTRALIA Strongest of the Australians at 1100 with time pips, fanfare and news by man.

846 2RN Canberra, AUSTRALIA Time pips, ABC news fanfare at 1300.

855 4QO/4QB Time pips, ABC news fanfare at 1300.

864 Khz 1339Z UNID - pretty clearly Korean - but this is one of my "dirty channels" - lots of co-channel josting and off frequency muck.

873 Khz 1340Z NHK2 - JOAB - Kumamoto - // to 774 JOUB Akita - not 1/2 of what it was yesterday - but SR bursts

882 Star Auckland, NEW ZEALAND Vocal by a man at 1324, //657.

891 5AN Adelaide, AUSTRALIA Not that good this morning considering the good conditions, but had a peak around 1315 with interview.

891 Khz 1319Z NHK1 - JOHK - Sendai, Miyagi - solid parallel to 594 Khz and slightly better overall today

909 Khz 1343Z NHK2 - JOCB - Nagoya, Aichi - easy parallel to 774 Khz

918 Khz 1336Z UNID - I felt quite confident that I was hearing Japanese - and 909 was yielding some - will look again tomorrow

954 Khz 1337Z TBS JOKR Tokyo (t) at times fair today - better than yesterday with bouncy - commercial style of Japanese programming

963 Khz 1337Z CRI China (600kw) - Russian again - a tad better than yesterday

972 Khz 1349Z KBS HLCA - Korean at full-on sunrise boost (as shown in accompanying YouTube highlight reel...) at this strength the average car radio would have no trouble picking it up.

1008 Khz 1333Z UNID - Japanese in clearly with independent programming

1017 Khz 1334Z - CNR - China assume the pretty darn clear Korean programming –

1026 Newstalk ZB NEW ZEALAND Talk program, //1035 at 1325
1053 Khz 1337Z - Korea S. - Jammer in pretty solid - no other programming or competitors noted this AM

1035 Newstalk ZB Wellington, NEW ZEALAND Commercial for a holiday tour company at 1324.

1053 Newstalk ZB New Plymouth, NEW ZEALAND Host talking to a female caller at 1330, //1035. New one for me.

1089 Khz 1349Z - NHK2 - Miyagi - Sendai - Surprise // to 774 khz quite good at times - square in the SR Boost cross-hairs

1098 Newstalk ZB Christchurch, NEW ZEALAND Talk by a man. Briefly stronger than // 1035 at 1316. New, after a few tentative logs.

1107 Khz 1338Z - UNID - Japanese sounding patter by OM - [pr.fr](#).

1116 Khz 1339Z - UNID - Pretty clear "Chinese" sounding dialect for around 4 minutes

1116 4BC Brisbane, AUSTRALIA Weak earlier, but had come up with talk about politics at 1122.

1233 2NC Newcastle, AUSTRALIA time pips and ABC news fanfare at 1100. First definite log of this one here.

1242 Khz 1344Z - JOLF (t) Tokyo - assuming the hopped up dialog between grown man and teenage girl announcers. fr.

1287 Khz 1345Z - JOHR (t) Hokkaido - assuming the commercial sounding Japanese language talking

1296 Newstalk ZB Hamilton, NEW ZEALAND After being a solid carrier for much of the morning finally had some audio at 1316, with two men conversing. // 1035. Another new one. A second decent carrier on 1296.02 never quite made audio.

1386 Khz 1321Z - NHK2 Various locations - easy // to 774 Khz and well before any LSR boost. pleasant surprise

1386 Radio Tarana Auckland, NEW ZEALAND Very weak, with talk by man at 1101. Stronger at 1314 with south Asian music, and even good at 1330 with woman in presumed Hindi.

1566 Khz 13--Z - HLAZ - Korea - stopped by frequently and it may have been the morning winner for the most sustained signal - no clear evidence of anything untoward happening here - but I just made an iPhone video (on the YouTube reel...)
